Analyzing English in a Global Context
A Reader

Edited by: Anne Burns, Caroline Coffin

London: Routledge

2000

'Any serious analysis of the state of the English language in the world today, the best ways to teach it, its evolving nature and cultural impact, must include this book in its bibliography.' - Aidan Hehir, English and Media Magazine

Devised in collaboration with the Open University and Macquarie University, Australia, Analyzing English in a Global Context is specifically designed for the postgraduate student market, as well as for teachers of English as a second or foreign language throughout the world. This is a groundbreaking Reader which includes specially commissioned pieces as well as classic texts and provides a global perspective on the changing uses and forms of English and its impact on language teaching contexts. Students' skills in analysing these forms will be developed through an examination of the major functional models and their strengths and weaknesses.
